Why is Travgenius able to offer such low prices?

As a wholesale consolidator we are able to offer the lowest rates normally only wholesalers have access to. By selling to closed user groups we save in marketing costs like Google ads. This savings is 100% given to our clients.

Is Travgenius cheaper than any other website?

For about 80% of our inventory we are able to provide rock bottom prices. However, sometimes hotels do have exclusive contracts with companies such as booking.com or other OTA (Online Travel Agents). In order to provide you the full inventory on our website, we also included those rates in our results. For those bookings, we cannot provide any discount, but you can be sure that by searching on *Travgenius* you will at least always have the best price available on the market. Even for third party content.

Why do I need a password to book with Travgenius?

Because of our great prices, we are not allowed to display them 'openly to the public'. Most of our rates are wholesale only and therefore we need to secure the site against unauthorised access.

What else do I need to consider when booking with Travgenius?

Once your booking is completed, we will email you a voucher for your reservation. Please print this voucher and show it to the hotel staff upon check-in. It is your proof that the hotel reservation is already paid by you.

Great – how can i sign up?

Easy – just send an email to info@travgenius.club and an account manager will be in touch with you after one business day maximum.
